## RCC Website Moves to New Location

The Research Computing Center (RCC) website recently merged with the ITS website. RCC content can be found in the new "Research" section of the ITS website: [its.fsu.edu/research](https://its.fsu.edu/research). Here, researchers can peruse grant resources, review RCC policies and quickly request access to research technology services, such as the high performance compute cluster or archival storage.

The main page also offers convenient access to RCC accounts, software documentation and research request forms. The new section is dedicated to advancing the visibility and availability of research technology at FSU.

## Research Spotlight: Visualizing the intellectual influence of women pedagogues through metadata mapping

**Dr. Tarez Graban**, associate professor of English and former affiliate to the digital humanities master's program at FSU, has worked with her team to develop the Linked Women Pedagogues (LWP) project, a "data-discovery tool" that brings light to women educators and their contributions from the Progressive Era to the end of the 20th century.
