

# FSU Unit Server Survey Questions

---

The cyber-threat landscape today is formidable. It seems that every week brings another news article of a major company, government agency or university experiencing a significant data breach. All universities—with massive amounts of data on current and former students, staff and donors, as well as research and other sensitive information—are high value targets.

Information Technology Services knows and appreciates that you understand protecting Florida State University's data is everyone's responsibility. The first step to improving the university's risk posture is to understand more about the environment. To that end, please take a few minutes to fill out this survey about your unit's servers, the software they run and the data they process and store.

*For the purpose of this survey, a server is defined as: a computer that provides access to an application, service or other resource through a network to one or more users, other computers or other IT equipment.*

1. How many physical servers are used to support your unit?

2. Do you have virtual servers that support your unit?

Yes (1)

No (2)

If No Is Selected, Then Skip To *What building(s) house your unit's se...*

3. How many virtual servers are used to support your unit?

4. What unit(s) hosts your virtual servers? (check all that apply)

My unit (1)

ITS (2)

Other (3) \_\_\_\_\_

5. What building(s) house your unit's servers?

6. What operating systems are used on your unit's servers?  
 Windows Server (enter version) (1) \_\_\_\_\_  
 Linux (enter version) (2) \_\_\_\_\_  
 Unix (enter version) (3) \_\_\_\_\_  
 Other (enter details) (4) \_\_\_\_\_
7. Who manages the servers used to support your unit's processes? (check all that apply)  
 My unit (1)  
 ITS (3)  
 Other (4) \_\_\_\_\_
8. What applications are provided by your unit's servers to users connecting to them?
9. What functions are fulfilled by your units servers? (e.g., department application for XYZ, email, video conferencing, file and print, database for XYZ application)
10. What individual(s) manage your unit's applications?
11. What types of data are stored or processed by your unit's servers? (e.g., student classwork, staff working files, purchasing or personnel files, intellectual property such as research files, sensitive files like athletics playbooks, technical documentation such as computer configuration files, network diagrams)
12. Does your unit use network attached storage (NAS)?  
 Yes (1)  
 No (2)  
 If No Is Selected, Then Skip To *Does your unit use a storage area net...*
13. Who manages your NAS?  
 My unit (1)  
 ITS (2)  
 Other (3) \_\_\_\_\_
14. Does your unit use a storage area network (SAN)?  
 Yes (1)  
 No (2)  
 If No Is Selected, Then Skip To *Does your unit use cloud services oth...*
15. Who manages your SAN?  
 My unit (1)  
 ITS (2)  
 Other (3) \_\_\_\_\_

16. Does your unit use cloud services other than what ITS provides with Microsoft 365? (e.g., Box, Dropbox, Amazon Web Services, hosted applications)

Yes (1)

No (2)

If No Is Selected, Then Skip To *Please enter your information.*

17. What cloud services does your unit use?

18. Please enter your information.

First Name (1)

Last Name (2)

Title (3)

Unit (4)

FSU Email Address (5)

FSU Phone Number (6)
