

ITS ALIGNMENT

WELCOME TO THE INFORMATION TECHNOLOGY SERVICES TEAM!

Rising together to achieve greater success and define the future of
technology in higher education

WHAT CHANGES?

The reporting structure for campus technology staff shifts to central ITS. Staff are added to departmental meetings, events and collaboration tools and may be introduced to new technologies and workflows.

WHAT DOES NOT CHANGE?

Job duties, work locations, work schedules and compensation and benefits remain the same, and employees retain their existing equipment. IT staff continue to support local customers in their college or department.

WHAT HAPPENS NEXT?

Watch for communication from ITS leadership for more information, updates and invites. We are here to support you every step of the way and ensure a smooth transition into your new role.

UNIVERSITY IT AGREEMENT

- Unit IT environment is managed by ITS
- Unit leverages services, configurations and technologies offered by ITS as needed
- ITS develops network infrastructure and desktop support recommendations based on standardized configurations and technologies supported by ITS
- Unit-specific applications and databases are managed as a collaborative effort
- IT needs assessments are conducted to understand the unit's current IT environment
- New and renewals of existing information technology initiatives are assessed by ITS
- Unit continues to maintain control and authority of the overall information technology budget
