ITS @ Orientation

Do you know all the ways ITS is involved with Orientation? As new Noles join FSU over the summer and fall semesters, one of their first encounters with university technology is via the New Nole Orientation module on the myFSU Mobile app. The mobile app is also where incoming students will find the ITS Tech Checklist and a list of welcome activities available through Hello FSU! ITS is also busy answering student and parent questions at a dedicated ITS table at orientation sessions and supporting the myFSU Student Central system that enables students to enroll in their first classes. Additionally, all new students must complete basic cybersecurity training as part of their orientation. If you would like to join the orientation fun and get involved at a future ITS table during the fall Welcome Week, let us know!

ITS News

Computer Tutors Classes

ITS has renewed our contract with Computer Tutors to offer more professional development opportunities to ITS staff. Computer Tutors offers a variety of training for IT professionals on everything from basic and advanced applications of popular Microsoft tools, such as Excel and Teams, to cybersecurity and service management courses. Review the schedule and submit the enrollment form to sign up for a class.

Save the Date! ITS Fall 2023 Open House

Mark your calendars for the Fall 2023 ITS Open House on November 8. ITS will host an all-staff town hall meeting during the day before opening the doors of TSB to campus partners for an open house in the afternoon. More details to come in early fall.

Save the Date

FERPA Training

If you did not have a chance to attend the FERPA ITS professional development training on June 20, a recording of the session is available online. The session covered details of the Family Educational Rights and Privacy Act (FERPA), a federal law that protects the privacy of student education records, and how it impacts our work in ITS.

Watch the Recording

ITS Events
Planning an event for the upcoming semester? We are looking for items to add to the ITS events calendar. Please submit all ITS events—training, presentations, workshops and more—that are open to members of the FSU community to the ITS Integrated Communications team for posting on the FSU events calendar.

RCC Maintenance Delay

The Research Computing Center has rescheduled planned maintenance to the HPC software stack to allow more time for planning and preparation. The upgrade has been moved from Summer 2023 to December 2023. Once complete, the upgrade will enhance the overall usability of the HPC as well as increase stability and fix bugs.

More Details

ProfessioNole Clothing Closet

Cleaning out your closet this summer? Consider donating any suits, blazers, skirts, dress pants and other professional attire and accessories to the ProfessioNole Clothing Closet. The closet, run by the FSU Career Center, gives FSU students a way to access free professional attire for career fairs, job interviews and that first job.

Making History Accessible Online

Dr. Will Hanley, an associate professor in the Department of History at Florida State University, is researching how to make historical materials more accessible. In one of his ongoing projects, he is assisted by undergraduate students in a course titled ‘Digital Microhistory Lab’ to digitize The Egyptian Gazette, a daily newspaper established in 1880 based in Alexandria, Egypt. Converting the newspaper from microfilm to a digital format requires a lot of energy and resources, which is where the Research Computing Center (RCC) comes in. As part of the new Interdisciplinary Data Humanities Initiative, RCC staff worked with Dr. Hanley to encode the newspaper files in an XML format and display them in a user-friendly format. "The RCC’s new initiative to try to reach out to scholars in the humanities is much appreciated," states Hanley—and will contribute to a more inclusive record of human history. Read the whole story on the RCC website.
We Are IT | Meet Chris Cloud!

A musician first and foremost, Chris Cloud pursued another interest while getting his third master’s degree in library and information studies at FSU. Now, Chris spends his days managing Microsoft server technologies at FSU and his free time singing and playing music in his church.

Meet Chris

Welcome to ITS!

We have several new team members joining us this month. Welcome to the team Brandon Casey, Jason Fraser and Joshua Joseph.

Happy Anniversary!

Happy work anniversary to all the ITS employees celebrating milestone anniversaries with FSU this month.

1 Year
“I have found the daily virtual commute feature to be very helpful! I appreciate how it can identify tasks that I may need to follow-up on, along with reminders on items I have already flagged. It also helps me be prepared for upcoming meetings.”

Betsy Chester, Executive Assistant, Office Administration

With the summer days going by in a flash and you getting in some last-minute vacations, now might be the perfect time to test out Viva Insights. Make sure your to-do list is clean, upcoming meetings are ready and some focus time is set for
when you return.

Shout Outs

“I cannot express enough gratitude for the creativity, professionalism and strong commitment to the project displayed by each and every member of the ITS team. They dedicated themselves to creating the complex Instructor Credentials System based on our expressed needs, then worked diligently to improve it based on feedback from users. Vice President Kistner and I will be forever grateful that the Office of Faculty Development and Advancement had such a strong partner.”

Jennifer N. Buchanan, Ph.D., Associate Vice President for Faculty Development and Advancement
