

# How do I set "Do Not Disturb"?

While signed in to Zoom:

## STEP 1

Select the **profile photo icon** in the top right corner.

## STEP 2

Select your current status.

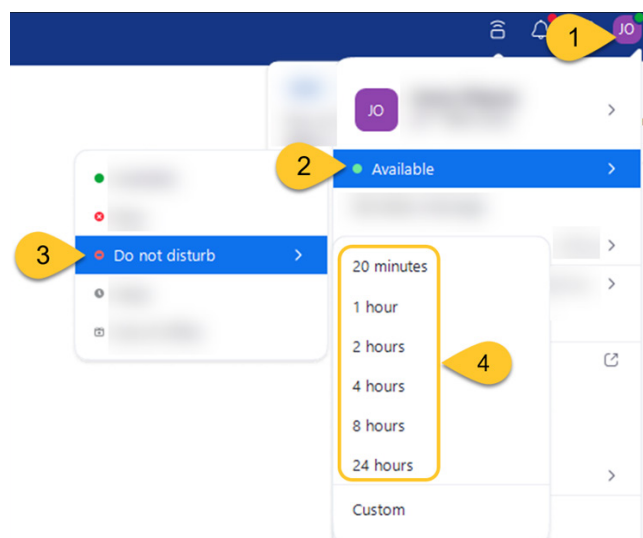

## STEP 3

Select the **Do not disturb** option.

## STEP 4

Select how long you want to have *Do not disturb* enabled. Choices are **20 minutes, 1, 2, 4, 8 or 24 hours**. Your phone will not ring for the duration selected.

**NOTE:** The *Custom* option is not currently supported.

## NOTE

When using Zoom, the following icons will appear by your profile photo icon. Only you can see your presence status.

Icon	Status	Description
	Offline	Contact is not signed in to Zoom.
	Available (Desktop)	Contact is signed in to Zoom via the desktop app. If also signed in via mobile app, this status overrides the mobile status.
	Available (Mobile)	Contact is signed in to Zoom via the mobile app only.
	Busy	Contact is busy and not necessarily available. This status clears after 24 hours if not manually reset.
	Away	Contact is signed in to the Zoom app, but either the device is inactive, or the contact has manually set this status. This status clears automatically.
	Do not disturb	Contact manually set the <i>Do not disturb</i> status and will not receive notifications for chat or phone calls.
	In a meeting	Contact has started, joined or is sharing their screen in a Zoom meeting.
	On a call	Contact is on a Zoom phone call.
	In a calendar event	Contact is in a calendar event but has not joined a Zoom meeting.
	Out of Office	Contact has marked themselves as <i>Out of Office</i> .
	Chat error	The chat message failed to send (also applies to files and images).
